

IDX BS820

Jumbo Scrolling Message Center

Sunlight Bright LEDs With Up To 9 Different Field Programmable Messages

DESCRIPTION:

The BS820 Jumbo Message Center has 2" high x 16" wide display with eye-popping ultra bright LEDs that are markedly visible in direct sunlight. The enclosure is 22.25" wide x 7.375" high x 2.50" deep. You can program 9 different 30-character "Service Messages" for display, each being controlled by a separate 24VAC Service Sense input signal. The unit continuously scrolls a programmable "Welcome Message" until a 24VAC signal is present on the external Timer Sense terminal (P1-6). Then it then it scans all 9 24VAC Service Sense terminals (P3-1 to P3-9) and sequentially and repetitively displays the "Service Messages" for each of them that are active.

APPLICATIONS:

The BS820 Jumbo Message Center is perfect for use in conjunction with most auto tellers in an automatic carwash to convey pricing or specials information to customers. It can be used as a "Welcome and Information Sign" to promote the services offered to customers waiting in line, or it can be used as an "Instruction Sign" and/or "Exit Sign" within a rollover carwash. The BS820 has many other uses such as "Entrance Signage" for an indoor carwash or just for a message center promoting the wash.

FEATURES:

- Power requirements – 24VAC at 1AMP
- Ultra Bright 2" high x 16" long LED Display
- Personalized Scrolling "Welcome" message
- 9 field programmable messages – 30 characters each, displayed under external control
- Remote control interface with the RC800 hand held remote programmer or computer interface

OPTIONS:

- Infrared remote upgrade module IRM800 to be used with new IR800 to remotely program the BS820
